AUSTRALIAN SPACE AGENCY

Transform and grow the Australian space industry

Current state:
- Australia makes up 0.9% of the US$345 Billion global space economy
- $3-4 Billion nationally, 10,000 jobs

Future state:
- Grow Australian space economy to $10-12 billion per year by 2030
- Add 10,000-20,000 new skilled jobs career pathways
- National alignment to priority areas
- International markets unlocked
- One door one voice

Australia has a highly skilled workforce and excellent R&D capabilities

First 100 days of the Australian Space Agency:
- Active International Engagement – MoUs signed with CNES, UK Space Agency and Canadian Space Agency
- Strong collaboration with other Australian Agencies and engagement with States and Territories
- Building connections with industry – Statements of Strategic Intent signed with Airbus and Sitael

Anthony Murfett - Deputy Head, Australian Space Agency
Space Policy Session, APRSAF – 25, 9 November 2018
